

FLAHERTY & CRUMRINE TOTAL RETURN FUND

To the Shareholders of Flaherty & Crumrine Total Return Fund (“FLC”):

Preferreds performed well in the third fiscal quarter¹, bringing total return for the year just back into positive territory. While these returns have not kept pace with returns in recent years, preferreds continue to outperform certain areas of the fixed income market. Total return² on net asset value (“NAV”) was 2.2% for the quarter, and 0.3% for the first nine months of fiscal 2018. Total return on market price over the same periods was 3.5% and -2.5%, respectively.

By most accounts, it has been a challenging year for corporate bond investments. As the current economic cycle has matured, interest rates rose modestly and credit spreads gradually widened. The yield curve flattened as the Federal Reserve methodically raised its benchmark rate while the long end of the Treasury yield curve moved up only modestly given a limited increase in broad-based inflation and subdued expectations for long-term economic growth. Over the first nine months of the Fund’s fiscal year, the Bloomberg Barclays U.S. Aggregate Index returned -0.5%, while the Bloomberg Barclays Long U.S. Credit Index returned -2.7%.

Preferreds outperformed these fixed-income benchmarks for a few key reasons. First, duration is moderate for many preferreds – and for the Fund’s portfolio specifically. We won’t repeat the merits of fixed-to-float preferreds here, but as previously discussed they offer attractive yields with intermediate duration. Owning both fixed-rate and fixed-to-float preferreds allows for management of portfolio duration despite the long-term nature of the Fund’s investments.

Second, an issuer’s preferreds generally yield more than its corporate bonds. The Fund’s strategy is to identify investment-grade issuers and invest down the capital structure (into preferreds) to earn extra yield for what is, in most cases, similar default risk. For issuers with solid credit quality, preferreds have consistently outperformed corporate bonds over a credit cycle. Over time, higher yields can make up for a lot of principal change and dampen effects of higher interest rates.

Outperformance of preferreds over other fixed income securities has been even better when considered after-tax. If shareholders missed our discussion on taxes in the semi-annual report dated May 31, 2018, we encourage a read. Most preferreds offer tax-advantaged income, which further enhances the extra yield earned for subordination (i.e. being lower in the capital structure than senior debt).

We believe the case for preferreds as an income investment remains largely intact, with a combination of higher relative yields, tax advantages, and benign credit conditions. Returns may be bumpy as markets navigate a late-cycle economy (albeit one that’s currently showing few signs of weakness) and an active Federal Reserve. For fixed-income investors, however, preferreds’ combination of credit quality, intermediate duration and yield should remain attractive.

Sincerely,

The Flaherty & Crumrine Portfolio Management Team

September 30, 2018

¹ June 1, 2018 – August 31, 2018

² Following the methodology required by the Securities and Exchange Commission, total return assumes dividend reinvestment.

- § Date shown is maturity date unless referencing the end of the fixed-rate period of a fixed-to-floating rate security.
- * Securities eligible for the Dividends Received Deduction and distributing Qualified Dividend Income.
- ** Securities distributing Qualified Dividend Income only.
- *** Aggregate cost of securities held.
- **** Securities exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional buyers. At August 31, 2018, these securities amounted to \$90,724,497 or 29.0% of total managed assets.
- (1) All or a portion of this security is pledged as collateral for the Fund's loan. The total value of such securities was \$193,264,099 at August 31, 2018.
- (2) Foreign Issuer.
- (3) Level 3, illiquid security (designation is unaudited; see Note 2: Additional Accounting Standards).
- (4) Valued at fair value as determined in good faith by or under the direction of the Board of Directors as of August 31, 2018.
- (5) Represents the rate in effect as of the reporting date.
- †† The issuer has filed for bankruptcy protection. As a result, the Fund may not be able to recover the principal invested and also does not expect to receive income on this security going forward.
- ‡ The percentage shown for each investment category is the total value of that category as a percentage of total managed assets.

⁽¹⁾ Whenever the net asset value per share of the Fund's Common Stock is less than or equal to the market price per share on the reinvestment date, new shares issued will be valued at the higher of net asset value or 95% of the then current market price. Otherwise, the reinvestment shares of Common Stock will be purchased in the open market.

NOTES TO FINANCIAL STATEMENTS (Unaudited)

1. Aggregate Information for Federal Income Tax Purposes

At August 31, 2018, the aggregate cost of securities for federal income tax purposes was \$315,346,504, the aggregate gross unrealized appreciation for all securities in which there was an excess of value over tax cost was \$17,377,992 and the aggregate gross unrealized depreciation for all securities in which there was an excess of tax cost over value was \$22,706,265.

2. Additional Accounting Standards

Fair Value Measurements: The Fund has analyzed all existing investments to determine the significance and character of all inputs to their fair value determination. The levels of fair value inputs used to measure the Fund's investments are characterized into a fair value hierarchy. Where inputs for an asset or liability fall into more than one level in the fair value hierarchy, the investment is classified in its entirety based on the lowest level input that is significant to that investment's valuation. The three levels of the fair value hierarchy are described below:

- Level 1 – quoted prices in active markets for identical securities
- Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Transfers in and out of levels are recognized at market value at the end of the period.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

A summary of the inputs used to value the Fund's investments as of August 31, 2018 is as follows:

	Total Value at August 31, 2018	Level 1 Quoted Price	Level 2 Significant Observable Inputs	Level 3 Significant Unobservable Inputs
Preferred Securities				
Banking	\$ 175,585,130	\$ 149,961,772	\$ 25,622,358	\$ 1,000

Energy	1,147,443	—	1,147,443	—
Communication	1,740,971	1,740,971	—	—
Miscellaneous Industries	2,424,600	—	2,424,600	—
Money Market Fund	434,205	434,205	—	—
Total Investments	<u>\$ 310,018,231</u>	<u>\$ 220,650,161</u>	<u>\$ 89,320,282</u>	<u>\$ 47,788</u>

During the reporting period, securities with an aggregate market value of \$1,980,000 were transferred into Level 1 from Level 2. The securities were transferred due to an increase in the quantity and quality of information related to trading activity or broker quotes for these securities. During the period, securities with an aggregate market value of \$4,477,595 were transferred into Level 2 from Level 1. The securities were transferred due to a decrease in the quantity and quality of the information related to trading activity or broker quotes for these securities. During the reporting period, there were no transfers into or out of Level 3.

The fair values of the Fund's investments are generally based on market information and quotes received from brokers or independent pricing services that are approved by the Board of Directors and are unaffiliated with the Adviser. To assess the continuing appropriateness of security valuations, management, in consultation with the Adviser, regularly compares current prices to prior prices, prices across comparable securities, actual sale prices for securities in the Fund's portfolio, and market information obtained by the Adviser as a function of being an active market participant.

Securities with quotes that are based on actual trades or actionable bids and offers with a sufficient level of activity on or near the measurement date are classified as Level 1. Securities that are priced using quotes derived from implied values, indicative bids and offers, or a limited number of actual trades—or the same information for securities that are similar in many respects to those being valued—are classified as Level 2. If market information is not available for securities being valued, or materially-comparable securities, then those securities are classified as Level 3. In considering market information, management

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

evaluates changes in liquidity, willingness of a broker to execute at the quoted price, the depth and consistency of prices from pricing services, and the existence of observable trades in the market.

The following is a reconciliation of Level 3 investments for which significant unobservable inputs were used to determine fair value:

	Total Investments	Preferred Securities	Corporate Debt Securities
		Banking	Financial Services
Balance as of 11/30/17	\$94,575	\$1,000	\$93,575
Accrued discounts/premiums	—	—	—
Realized gain/(loss)	—	—	—
Change in unrealized appreciation/(depreciation)	(46,787)	—	(46,787)
Purchases	—	—	—
Sales	—	—	—
Transfer in	—	—	—
Transfer out	—	—	—
Balance as of 08/31/18	\$47,788	\$1,000	\$46,788

For the nine months ended August 31, 2018, total change in unrealized gain/(loss) on Level 3 securities still held at period-end and included in the change in net assets was \$(46,787).

The following table summarizes the valuation techniques used and unobservable inputs developed to determine the fair value of Level 3 investments:

Category	Fair Value at 08/31/18	Valuation Technique	Unobservable Input	Input Range (Wgt Avg)
Preferred Securities (Banking)	\$ 1,000	Bankruptcy recovery	Credit/Structure-specific recovery	0.00% - 0.02% (0.01%)
Corporate Debt Securities (Financial Services)	46,788	Bankruptcy recovery and market information	Credit/Structure-specific recovery	0.5% - 2.0% (1.0%)

The significant unobservable inputs used in the fair value measurement technique for bankruptcy recovery are based on recovery analysis that is specific to the security being valued, including the level of subordination and structural features of the security, and the current status of any bankruptcy or liquidation proceedings. Observable market trades in bankruptcy claims are utilized by management, when available, to assess the appropriateness of valuations, although the frequency of trading depends on the specific credit and seniority of the claim. Expected recoveries in bankruptcy by security type and industry do not tend to deviate much from historical recovery rates, which are very low (sometimes zero) for preferred securities and more moderate for senior debt. Significant changes in these inputs would result in a significantly higher or lower fair value measurement.
